Subject: AI Energy Solutions Awarded Welding Services Contract for Kings Mountain, NC Power Project

Charlotte, NC, May 30, 2017 – [AI Energy Solutions](#) announced it has been awarded a welding services contract in support of a new 475 megawatt natural gas-fired combined cycle power plant (CCPP) located near Kings Mountain, NC. The project scope includes an advanced combustion turbine, supplementary-fired heat recovery steam generator, and state-of-the-art steam turbine generator.

“We are pleased AI Energy Solutions has been chosen to provide specialty welding services on this important project. AI Energy Solutions is well positioned to provide top quality services to the most advanced projects in the power sector,” said Brad Lukehart, President of AI Energy Solutions.

About AI Energy Solutions

AI Energy Solutions provides a complete spectrum of field services for industrial projects. We have constructed projects of various sizes and complexities both by self-performing and teaming with strategic partners. Our projects have included grassroots facilities, plant expansions, retrofits, upgrades, and turnarounds. With the experience to manage all craft and disciplines, we substantially increase control over the project and ensure a successful completion.
